Quindi, anche se sembra semplice, è un bastone importante che devi imparare prima di muoverti per emettere disegni di argilla polimetrica. In questo tutorial ti mostrerò un bash a strisce di base con strisce bianche e bianche. Le bolle di argilla polimerica traslucida sono molto simili al raggio di pizzo traslucido dall'alto, ma il processo di assemblaggio deve essere fatto più precisamente per evitare una frantumazione dei cerchi. Questa canna è un passo avanti dall'occhio del toro indicato nel tutorial precedente. Dopo tante richieste sulla mia pagina Patreon, ho finalmente girato in giro a fare un polimero traslucido del tutorial del pizzo di argilla! Il laccio traslucido del pizzo è ampiamente versatile. Il bastone di scacchi è un'altra importante tecnica di argilla polimerica di base che viene spesso utilizzata in combinazione con altre tecniche in progetti e canne più complesse. In questo tutorial ti mostrerò come creare un semplice ma bellissimo papavero di papavero Cañola. Tutto quello che devi sapere sono concetti di base come le miscele della pelle, i tappi della miscela della pelle e i bastoncini del toro. In questo ricco tutorial di argilla, faremo una grotta di argilla rossa realistica usando Argilla Premo Sculpey. In alternativa, dai un'occhiata al mio Patreon. Per una piccola quota associativa mensile, avrai accesso a tutti i tipi di suggerimenti e video tutorial riservati soprattutto per i miei membri, affermando come, alcuni degli Etsy. Può essere usato da solo o come un bel pezzo di accento. È molto divertente e facile da fare. In questo tutorial, ho intenzione di mostrare un bastone di scacchi di base in bianco e nero. Tuttavia, come con molti dei cani, i bastoncini a foglia possono essere fatti come semplici o complessi come la loro immaginazione Nel video vi mostrerò anche altri due bastoni complessi utilizzando gli Occhi di Bulls avvolti e qui c'è un link alla mia tecnica Rippling Bulls Eye che utilizza anche Wrapped Bulls Eyes come punto di partenza. In questo tutorial ti mostrerò come easy to make and is a great way to add interest to even the most simple projects while you learn the basics. I'll be showing you lots of examples at the end of the tutorial. The Complex Bulls Eye Petal Cane is a fun, easy and versatile cane that can be used as part of detailed kaledoscopes or flower canes, as butterfly wings or in many other ways.You can add Skinner Blends and colors to match this cane to any project. It's a great place to share, be encouraged and ask all of your polymer clay questions. In this tutorial, I'll be showing you a simple black and white version of the Complex Bulls Eye Petal Cane. It's a simple, fun way to get the effect of a rose without a lot of messing around with color blending.It's great for caning beginners or people who just don't enjoy the fussing that is necessary with some polymer clay canes.À Á I'm calling mine an evening rose because of the colors, but you can use any colors you like for this project. They are great fun to play around with. There are also exclusive giveaways and a discount coupon for my shop, JessamaDesign on Etsy.We have a fabulous group of members already. In this polymer clay tutorial IeÀÀÀÀl be showing you how to create a translucent nautilus polymer clay cane. The technique shown is easy to follow. Learning how to reduce polymer clay canes correctly is a very important basic caning skill. The shapes are easier to master and the square cane is easier to reduce. It's easy to create different versions of this cane, just by changing out the base canes you combine. Perfect for those just getting started with polymer clay canes and great fun. There will be other tutorials showing you how to make more detailed leaf canes coming up soon. The Stropel cane originally developed by Alice Stropel is a great technique for using up polymer clay leftovers. This tutorial covers a simple black and white flower cane with rounded petals.
